

Pramo Jewels

Content Management System (CMS) Specification

Document ID: PJ-CMS-001

Version: 1.0

Status: Approved for Development

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define the architecture, features and governance of the Content Management S
Audience	Content Managers, Marketing Team, Administrators, Developers, QA
Version	1.0

Core CMS Modules

CMS Module	Capabilities
Pages	Create, edit, publish and archive website pages
Blogs & Articles	Rich-text editor, categories, tags and SEO metadata
Banners & Promotions	Homepage banners, campaign content and seasonal creatives
Media Library	Image, video and document management with folders
Navigation	Menus, footer links and page hierarchy
SEO	Meta titles, descriptions, slugs, schema and redirects
Versioning	Drafts, revisions, approvals and rollback
Publishing	Scheduled publishing and unpublishing workflows

Content Workflow

Draft → Review → Approval → Scheduled Publishing → Live → Archive. Every revision is stored with author and timestamp.

Business Rules

Only authorized users may publish content. Drafts are invisible to customers. Deleted content follows retention and recovery policies.

Media Management

Support optimized media uploads, alt text, responsive images, file versioning and usage tracking.

SEO & Content Governance

Enforce unique URLs, metadata validation, canonical links, sitemap updates and structured content standards.

Security

Use RBAC, approval workflows, audit logging, input sanitization, CSRF protection and secure file upload validation.

Performance

Serve optimized assets via CDN, cache published pages, lazy-load media and support asynchronous indexing.

Integrations

Integrates with Product Catalog, Marketing, Search, Analytics, Notification System, SEO services and Audit Logging.

Acceptance Criteria

Content is published reliably, revisions are recoverable, permissions are enforced and SEO metadata is managed consistently.
