1. Purpose

Define the identity system that ensures every customer touchpoint communicates a consistent premium image across digital, print and packaging.

2. Brand Essence

Luxury made approachable through timeless design, authentic craftsmanship and trusted service.

3. Brand Personality

Elegant, premium, modern, minimal, trustworthy, refined, warm and timeless.

4. Visual Identity Principles

- Minimal layouts with generous white space.
- Jewellery is always the visual hero.
- Premium photography over decorative graphics.
- Consistent typography and spacing.
- Subtle luxury rather than excessive ornamentation.

5. Color Direction

Primary Background: Warm Ivory
Secondary Background: Soft Beige
Primary Text: Charcoal Black
Accent: Champagne Gold
Support: Stone Grey

6. Typography Direction

Primary: Elegant serif for headings.
Secondary: Modern sans-serif for body text.
Maintain generous letter spacing and readability.

7. Logo Usage

- Use approved logo artwork only.
- Maintain clear space around the logo.
- Do not stretch, rotate or distort.
- Do not add shadows or gradients unless officially approved.

8. Imagery Style

- High-resolution product photography.
- Soft natural lighting.
- Neutral luxury backgrounds.
- Focus on craftsmanship and material details.

9. Icon & Illustration Style

Use clean, thin-line icons with consistent stroke widths. Avoid overly decorative illustrations.

10. Brand Voice

Professional, reassuring, elegant and informative. Avoid slang, exaggerated marketing claims and cluttered messaging.

11. Digital Experience

- Smooth interactions.
- Premium animations.
- Consistent spacing.
- Accessible interface.
- Responsive across all devices.

12. Applications

The identity system applies to the website, mobile applications, packaging, invoices, social media, email templates, business cards and promotional materials.

13. Do's and Don'ts

Do:

- Keep layouts clean.
- Highlight product quality.
- Maintain consistency.

Don't:

- Overuse bright colors.
- Mix unrelated fonts.
- Use low-quality imagery.
- Overcrowd layouts.
