

Pramo Jewels

Maintenance Plan

Document ID: PJ-MNT-001

Version: 1.0

Status: Approved for Operations

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define operational maintenance activities, schedules, responsibilities and continuous improvement processes
Audience	DevOps Engineers, Developers, System Administrators, Support Team, Operations Manager
Version	1.0

Maintenance Scope

Maintenance Area	Activities
Application	Bug fixes, feature enhancements, dependency updates
Infrastructure	OS updates, server patching, capacity planning
Database	Backup verification, indexing, optimization, integrity checks
Security	Vulnerability remediation, certificate renewal, access reviews
Monitoring	Alert tuning, dashboard review, log archival
Performance	Optimization, load review, resource scaling
Disaster Recovery	Backup validation and recovery drills
Documentation	Runbooks, release notes and operational documentation updates

Objectives

Maintain platform availability, reliability, security and performance throughout the operational lifecycle.

Maintenance Schedule

Perform daily health checks, weekly log reviews, monthly patching, quarterly security audits and annual disaster recovery exercises.

Change Management

All maintenance activities follow approved change management, testing and rollback procedures before production implementation.

Incident Management

Track incidents, perform root-cause analysis, implement corrective actions and monitor recurring issues.

Security

Review privileged access, rotate secrets, update dependencies and verify compliance with organizational security policies.

Reporting

Publish maintenance reports including uptime, incidents, patch status, capacity trends and completed maintenance tasks.

Integrations

Integrates with Monitoring, Logging, CI/CD, Incident Management, Backup Systems, Security Tools and Service Desk.

Acceptance Criteria

Scheduled maintenance is completed successfully, service availability meets SLAs, documentation is updated and operational risks remain within acceptable limits.
