

Pramo Jewels

Return & Refund Policy

Document ID: PJ-RRP-001

Version: 1.0

Status: Approved for Development

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define return, replacement and refund rules for customer orders
Audience	Customer Support, Operations, Developers, QA, Management
Version	1.0

Policy Components

Policy Area	Specification
Return Window	Configurable (e.g. 7–14 days after delivery)
Eligible Items	Unused items meeting business conditions
Non-Returnable	Customized, damaged-by-customer or excluded items
Refund Methods	Original payment method, UPI, gift card or store credit
Replacement	Available for eligible defective or incorrect products
Inspection	Quality verification before approval
Status Tracking	Customer-visible return and refund status

Return Workflow

Customer Request → Eligibility Validation → Approval → Pickup/Customer Shipment → Quality Inspection → Replacement or Refund → Case Closure.

Business Rules

Only delivered orders are eligible. Refunds are initiated after successful inspection unless otherwise approved. Inventory is updated after accepted returns.

Refund Processing

Support full and partial refunds. Refund status is synchronized with the payment gateway and recorded in the order history.

Customer Communication

Notify customers at every stage including request received, approval, pickup, inspection, refund initiation and completion.

Integrations

Integrates with Orders, Payments, Inventory, Shipping, Notifications, Customer Support and Analytics.

Fraud Prevention

Detect excessive returns, validate purchase history, require proof where applicable and audit all manual overrides.

Administration

Admins configure eligibility rules, return windows, reasons, workflows and refund approvals. All actions are audit logged.

Acceptance Criteria

Eligible returns are processed consistently, refunds reconcile with payments, inventory remains accurate and customers can track return progress.
