Status: Approved for Development

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define the architecture, workflows and integration standards for social media platform
Audience	Marketing Team, Developers, Content Team, QA, Administrators
Version	1.0

Core Social Media Modules

Integration Area	Capabilities
Social Login	OAuth login via supported providers
Social Sharing	Share products, blogs and campaigns
Content Publishing	Schedule posts across supported channels
Product Promotion	Publish featured collections and launches
User Engagement	Track likes, comments, shares and clicks
UGC	Collect and moderate user-generated content
Analytics	Campaign reach, engagement and conversions
Advertising	Support tracking pixels and campaign attribution

Publishing Workflow

Create Content → Review → Approval → Schedule → Publish → Monitor Performance → Optimize Future Campaigns.

Business Rules

Only authorized users may publish or schedule content. Brand guidelines and approval workflows apply before publication.

Content Standards

Use optimized images/videos, consistent branding, hashtags, campaign tags and platform-specific formats.

Analytics

Measure reach, impressions, engagement rate, click-through rate, conversions, referral traffic and ROI.

Security

Protect API credentials, use OAuth where applicable, enforce RBAC, audit publishing actions and validate webhook events.

Performance

Queue scheduled posts, retry transient API failures and cache non-critical analytics data.

Integrations

Integrates with CMS, Product Catalog, Marketing Automation, Analytics, Email Marketing, Notifications and Audit Logging.

Acceptance Criteria

Social integrations publish reliably, engagement metrics synchronize correctly, permissions are enforced and campaign data is traceable.
