Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define the search engine optimization strategy to maximize organic visibility and
Audience	Marketing Team, SEO Specialists, Content Team, Developers, QA
Version	1.0

Core SEO Strategy Areas

SEO Area	Strategy
Technical SEO	Fast loading, mobile-first, HTTPS, crawl optimization
On-Page SEO	Optimized titles, meta descriptions, headings and internal links
Content Strategy	Jewellery guides, blogs, buying tips and FAQs
Product SEO	Unique descriptions, schema markup and optimized images
Local SEO	Business profiles, local keywords and location pages
Link Building	Quality backlinks, PR and partnerships
Analytics	Rank tracking, traffic, conversions and Core Web Vitals
Maintenance	SEO audits, broken-link checks and content refreshes

Keyword Strategy

Target transactional, informational and branded keywords with category-specific optimization and long-tail search intent.

Content Governance

Maintain an editorial calendar, update evergreen content, optimize product pages and ensure consistent brand voice.

Technical Requirements

Implement XML sitemaps, robots.txt, canonical URLs, structured data, image optimization and clean URL structures.

Performance

Optimize Core Web Vitals through caching, CDN usage, image compression, lazy loading and efficient code delivery.

Monitoring

Track keyword rankings, impressions, click-through rate, organic traffic, conversions, crawl errors and indexing status.

Security

Maintain HTTPS across the platform, prevent duplicate content issues and monitor for SEO spam or unauthorized changes.

Integrations

Integrates with CMS, Analytics, Search Console, Product Catalog, Marketing Automation and Audit Logging.

Acceptance Criteria

Pages are indexed correctly, metadata is complete, technical SEO issues remain within acceptable thresholds and organic visibility improves over time.
