Status: Approved for Development

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define privacy requirements for collecting, processing, storing and protecting pe
Audience	Management, Legal, Developers, Security, QA
Version	1.0

Privacy Requirements

Category	Requirement
Personal Information	Collect only information necessary for account creation, orders, delivery and customer support.
Payment Data	Do not store raw card data. Use certified payment gateways for processing.
Cookies	Disclose cookie usage and obtain consent where required.
Marketing	Provide opt-in/opt-out controls for promotional communications.
Third Parties	Share data only with required service providers such as payment and courier partners.
Retention	Retain personal information only for legitimate business, legal or regulatory purposes.
User Rights	Provide mechanisms to access, update or request deletion of eligible personal information.

Data Collection Principles

Collect only the minimum information necessary, clearly explain the purpose of collection and avoid unnecessary personal data.

Consent Management

Obtain consent for account creation, marketing communications and optional data processing where applicable. Record consent status for audit purposes.

Data Security

Protect personal information using encryption, RBAC, secure coding practices, monitoring and regular security assessments.

Data Sharing

Limit disclosure to authorized service providers under contractual obligations and only for business functions such as payments, logistics and notifications.

Cross-Border Transfers

Where cross-border processing is required, apply appropriate contractual, technical and organizational safeguards.

Incident Notification

Maintain procedures to investigate privacy incidents and notify affected parties or regulators when required by applicable law.

Compliance

Design the platform to support applicable privacy regulations and maintain documentation, audit trails and periodic policy reviews.

Governance

Review the privacy policy annually and whenever significant business processes, integrations or legal requirements change.
