Document ID: PJ-DRP-001

Version: 1.0

Status: Approved for Development

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define retention, archival and secure disposal requirements for business and customer data
Audience	Management, Legal, Security, Developers, DBAs, DevOps
Version	1.0

Retention Schedule

Category	Retention Period	End-of-Life Action
Data Category	Retention	Disposal Method
Customer Accounts	While account is active + legal/business requirements	Secure deletion or anonymization
Orders & Invoices	As required for taxation/accounting regulations	Secure archival then deletion
Payment References	Per gateway/legal requirements (no raw card data stored)	Secure deletion
Product Catalogue	While active + archive history	Archive then deletion
Application Logs	90 days (default)	Secure deletion
Audit Logs	Minimum 1 year	Secure archival
Backups	Per Backup Policy	Cryptographic erase / secure deletion
Marketing Preferences	Until user withdraws consent	Immediate update and purge where applicable

Data Classification

Apply retention based on Public, Internal, Confidential and Restricted classifications.

Retention Principles

Retain only information necessary for business, operational, contractual and legal purposes.
Minimize unnecessary storage of personal information.

Archival Strategy

Archive inactive records in encrypted storage with restricted access while preserving auditability and integrity.

Secure Disposal

Use secure deletion, cryptographic erasure or anonymization. Ensure deleted records cannot be reconstructed from production systems.

Legal Hold

Suspend deletion when records are subject to litigation, investigations or regulatory requirements until the hold is released.

User Requests

Support eligible deletion and correction requests while honoring legal and financial recordkeeping obligations.

Monitoring & Auditing

Review retention compliance quarterly and maintain audit logs of archival and deletion activities.

Governance

Review this policy annually or whenever business processes, regulations or storage technologies change.
