

Pramo Jewels

Warehouse Workflow

Document ID: PJ-WHW-001
Version: 1.0
Status: Approved for Development

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define warehouse operations from inventory receipt to order fulfillment and revenue
Audience	Warehouse Team, Operations, Backend Developers, QA, Inventory Managers
Version	1.0

Warehouse Lifecycle

Warehouse Stage	Description
Goods Receiving	Receive and verify incoming inventory.
Quality Inspection	Inspect products for quality and accuracy.
Storage	Assign products to warehouse locations.
Inventory Update	Update stock records and availability.
Order Picking	Pick products for confirmed orders.
Packing	Pack, label and prepare shipments.
Dispatch	Handover packages to courier partner.
Returns Processing	Inspect returned items and restock/quarantine/dispose.

Workflow

Goods Receiving → Inspection → Storage → Inventory Update → Picking → Packing → Dispatch
→ Returns Processing → Inventory Reconciliation.

Business Rules

Only quality-approved products are stored or dispatched. Inventory updates occur in real time.
Stock discrepancies require supervisor approval and audit logging.

Picking & Packing

Use SKU/barcode verification where available, follow FIFO/FEFO policies if applicable, and perform final quality checks before dispatch.

Returns & Reverse Logistics

Returned items are inspected and classified as Restock, Repair, Quarantine or Scrap according to business policy.

Integrations

Integrates with Inventory Management, Orders, Shipping Partners, Returns, Analytics, Notifications and Audit Logging.

Security

Restrict warehouse operations using RBAC, maintain audit trails for stock movements and protect inventory records from unauthorized changes.

Monitoring

Track picking accuracy, packing time, dispatch turnaround, inventory variance, warehouse throughput and return processing time.

Acceptance Criteria

Warehouse operations maintain inventory accuracy, fulfill orders efficiently, process returns consistently and record all stock movements.
