

Pramo Jewels

Delivery SLA Document

Document ID: PJ-SLA-001
Version: 1.0
Status: Approved for Development

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define service level objectives, delivery commitments and logistics performance
Audience	Operations, Logistics, Customer Support, DevOps, QA, Management
Version	1.0

Service Level Targets

SLA Metric	Target
Order Processing	Within configurable business hours after payment confirmation
Shipment Creation	Same day or next business day depending on cut-off
Pickup Success	High first-attempt pickup rate
Delivery Time	Based on courier zone and selected shipping service
Tracking Updates	Near real-time after courier events
Customer Notifications	Promptly after major shipment milestones
RTO Processing	Handled within defined operational SLA
Support Response	According to customer support priority matrix

Scope

Applies to domestic order fulfillment, shipment processing, delivery tracking, reverse logistics and customer delivery communications.

Responsibilities

Warehouse prepares shipments, courier partners transport packages, customer support manages delivery exceptions and operations monitor SLA compliance.

Business Rules

Delivery estimates depend on destination, courier availability, weather, public holidays and force majeure events.

Exception Management

Track SLA breaches, identify root causes, escalate unresolved issues and implement corrective actions.

Monitoring

Measure on-time delivery, first-attempt delivery rate, average transit time, delayed shipments, RTO rate and customer satisfaction.

Reporting

Provide daily operational dashboards, weekly SLA summaries and monthly performance reviews for courier partners.

Continuous Improvement

Review courier performance regularly, optimize routing, update partner scorecards and refine operational workflows.

Acceptance Criteria

Delivery performance is measurable, SLA breaches are visible, corrective actions are documented and reporting supports operational decisions.
