

Pramo Jewels

User Journey Maps

Document ID: PJ-UX-002
Version: 1.0
Status: Draft

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Document end-to-end user journeys and UX touchpoints
Audience	UX Designers, Product Team, Developers, QA
Version	1.0

Journey 1 – First-Time Purchase

Aspect	Details
Goal	Buy premium jewellery confidently.
Stages	Discover → Browse → View Product → Add to Cart → Checkout → Payment → Confirmation
User Actions	Search products, compare items, read reviews, select size/variant, pay using UPI/Card/COD.
Thoughts	Is this authentic? Is delivery reliable?
Pain Points	Lack of trust, slow loading, confusing checkout.
Opportunities	Certificates, rich media, trust badges, progress indicator, guest checkout option.

Journey 2 – Returning Customer

Aspect	Details
Goal	Complete a repeat purchase quickly.
Stages	Login → Wishlist/History → Cart → Checkout → Tracking
User Actions	Reuse saved address/payment preference.
Thoughts	I want a faster experience.
Pain Points	Repeated data entry.
Opportunities	One-click reorder, personalized recommendations.

Journey 3 – Gift Buyer

Aspect	Details
Goal	Find and send the perfect gift.
Stages	Browse Gifts → Filter → Gift Wrap → Checkout → Delivery
User Actions	Use gift guide, add message, choose gift packaging.
Thoughts	Will it arrive on time?

Pain Points	Uncertainty about selection.
Opportunities	Gift collections, delivery estimates, occasion filters.

Journey 4 – Order Support

Aspect	Details
Goal	Resolve delivery or return issue.
Stages	Order History → Support → Return Request → Resolution
User Actions	Track order, contact support, submit return.
Thoughts	I need a quick solution.
Pain Points	Long response times.
Opportunities	Self-service tracking and return workflow.

Common UX Insights

Across all journeys, users expect trust, fast performance, premium visuals, transparent pricing, simple checkout, reliable delivery tracking and responsive customer support. These insights should guide future UI decisions and feature prioritization.
