

Pramo Jewels

UX Writing Guidelines

Document ID: PJ-UXW-001

Version: 1.0

Status: Draft

Field	Value
Project	Pramo Jewels Premium E-Commerce Platform
Purpose	Define content standards for all user-facing copy
Audience	UX Writers, Designers, Developers, QA, Marketing
Version	1.0

1. Brand Voice

Write with confidence, warmth and elegance. Use clear, concise language that builds trust without sounding overly promotional.

2. Tone

Professional, reassuring and premium. Adapt tone slightly for confirmations, errors and support while remaining respectful.

3. Writing Principles

Use plain language, active voice, short sentences, meaningful headings and consistent terminology.

4. Navigation Labels

Use familiar labels such as Shop, Collections, Wishlist, Cart, Orders, Profile and Support.

5. Buttons

Use action-oriented labels: Add to Cart, Buy Now, Continue, Save Address, Track Order, Place Order.

6. Forms

Provide clear labels, concise placeholders and helpful helper text. Mark required fields consistently.

7. Validation & Errors

Explain what went wrong and how to fix it. Example: 'Please enter a valid mobile number.' Avoid technical jargon.

8. Success Messages

Confirm completed actions clearly. Example: 'Your order has been placed successfully.'

9. Empty States

Guide users with helpful next steps. Example: 'Your wishlist is empty. Explore our latest collections.'

10. Checkout Copy

Keep instructions brief. Display transparent pricing, delivery estimates and payment guidance.

11. Notifications

Use concise updates for registration, payments, shipping, delivery and returns across email, SMS and WhatsApp.

12. Accessibility

Write descriptive link text, meaningful headings, clear button labels and avoid ambiguous phrases like 'Click Here'.

13. Localization

Prepare copy for future multilingual support using simple, culturally neutral language.

14. Content Governance

Review all new copy for consistency with the brand voice before release and maintain a shared terminology glossary.
